European Journal of Operational Research 29 (1987) 401–402
North-Holland

Contents Volume 29

1 Invited Review
Stochastic models of consumer behaviour
U. Wagner and A. Taudes
24 On a formalisation of the process of quantitative model building
Ch. Schneeweiss
42 A comparison of different modelling approaches to strategic energy planning
D. Dijk and M. Kok
51 Expert systems in production scheduling
J.J. Kanet and H.H. Adelsberger
60 Estimating the lead-time demand distribution when the daily demand is non-normal and autocorrelated
H.-S. Lau and M.-C. Wang
70 A deterministic order level inventory model for deteriorating items with two storage facilities
K.V.S. Sarma
74 Modular product design and product support
U.S. Karmarkar and P. Kubat
83 Optimal resource profiles for program scheduling
L.V. Tavares
91 Reversible-shop scheduling
I. Adiri, N. Aizikowitz and V. Lev
98 Solving general continuous single facility location problems by cutting planes
F. Plastria
111 OR Software
113 Book Reviews
121 EURO Bulletin

Special issue on OR in Health

127 Editorial
128 The relationship between decision support systems and operational research: Health care examples
D. Boldy
135 The problem structuring in a hospital
A. Panayotopoulos and N. Assimakopoulos
144 MEMRA: An equilibrium model for resource allocation in a health care system
L. Delorme and J.-M. Rousseau
159 A simulation approach to cost-effectiveness and cost-benefit calculations of screening for the early detection of disease
J.D.F. Habbema, J.Th.N. Lubbe, G.J. van Oortmarssen and P.J. van der Maas
167 Visual simulation in hospitals: A managerial or a political tool?
L.M. Jones and A.J. Hirst
178 Simulation modelling of emergency medical services
M. Lubicz and B. Mielczarek
186 Register-based description of treatment processes in hospital care
S.V. Petersen
192 Optimal planning of a pediatric semi-intensive care unit via simulation
G. Romanin-Jacur and P. Facchin
199 Nursing workload measurement as management information
G. de Vries
209 OR Software
211 Book Reviews
222 EURO Bulletin

229 Invited Review
The facility layout problem
A. Kusiak and S.S. Heragu
252 The development of computer software for risk analysis: A decision support system development case study
P. Clark and C.B. Chapman
262 Project scheduling with resource constraints: A branch and bound algorithm
N. Christofides, R. Alvarez-Valdes and J.M. Tamarit
274 Optimal production and abatement policies of a firm
G. Feichtinger and M. Luptáčik
286 Approximation for operating characteristics in a production-inventory model with variable production rate
A.G. de Kok
298 The *m* machines problem
J. Carlier
307 On the expected value of stochastic linear programs and (dynamic) network flow problems
U. Fincke and H.W. Hammacher
317 On a particular quadratic network problem
E.Q.V. Martins
328 A forward convex-simplex algorithm
J.D. Stanley
336 A multiple criteria decision analytic approach for evaluating acid rain policy choices
G. Anandalingam
353 A comparative evaluation of interactive solution methods for multiple objective decision models
J.T. Buchanan and H.G. Daellenbach
360 Estimating criterion weights using eigenvectors: A comparative study
E. Takeda, K.O. Cogger and P.L. Yu
370 A fitting algorithm for Markov-modulated Poisson processes having two arrival rates
K.S. Meier-Hellstern
378 A note on the Edmonds–Fukuda pivoting rule for Simplex algorithms
J. Clausen
384 OR Software
386 Book Reviews
395 EURO Bulletin
